PROFESSIONAL EXPERIENCE

Founder & Lead Developer | NeuralBytea | 2026 - Present

• Independent Odoo app studio. I design, build, publish and support my own apps on the Odoo Apps Store for Odoo 17-20, on both Community and Enterprise.
• 32 published apps across 7 product lines: portals, payments, HR and payroll, dashboards, AI assistant, education and backend UI
• School and course management suite: 12 apps covering students, admissions, family fee invoicing, parent portal, teachers, timetable, dashboards, training batches with seats and waiting lists, and fee installments
• Claude Connector for Odoo: an on-premises MCP server that gives Claude read-only access to Odoo under each user's own access rights; plus an in-app AI chat that works with ChatGPT, Claude or Gemini
• Portal apps (vendor, customer, field sales) that let external users self-serve without extra user seats
• Mastercard MPGS Hosted Checkout with 3-D Secure and automatic invoice reconciliation
• OWL dashboards with Excel/PDF export, plus backend UI upgrades (split view, sidebar navigation, AI list search)
• Full product ownership: store listings, versioning across four Odoo series, OPL-1 / LGPL-3 licensing and customer support

Odoo Techno-Functional Consultant | Big Binary Tech | Aug 2026 - Present

• Bridge business requirements and technical delivery on Odoo: project ownership, requirement analysis, implementation and scalable solution design.
• Own end-to-end Odoo project delivery as both functional and technical lead: scoping, planning, task breakdown, milestones, progress tracking and stakeholder communication
• Run requirement gathering and gap analysis with clients, turn business processes into functional specifications, and decide what to configure versus customize
• Design and implement Odoo solutions across modules, covering configuration, custom development, data setup and integrations
• Architect for scalability and maintainability: clean module structure, performance-aware queries, access security and upgrade-safe customizations
• Handle technical oversight including code review, deployment support, troubleshooting and production issue resolution
• Support user training, UAT, go-live and post-implementation support, acting as the single point of contact between the client and the development team

Senior Odoo Developer | TTI Testing Laboratories | May 2026 - Present

• Independently own Odoo 18 development, customizations, maintenance, bug fixing, performance optimization, integrations, security and Odoo.sh deployments across four branches.
• Built employee self-service for 250+ employees covering attendance, leave, timesheets, tasks, payslips, loans, documents and profile information.
• Built OWL/JavaScript Attendance Dashboard & Leave Gantt with KPIs, charts, drill-downs, click-to-edit, Excel export, timezone/schedule handling and optimized data loading.
• Built Field Sales Portal for ~15-20 salespeople and 5-7 managers with territory hierarchy, visits, CRM leads, targets, orders, invoices, collections and secure team visibility.
• Wrote batch migration/backfill scripts for 54,000+ historical sales records and related invoice/payment mappings.
• Designed bidirectional testing/certification integration and CRM ingestion from website, GoHighLevel and forms with Basic Auth, duplicate detection, source tracking and automated assignment/stages.

Odoo Team Lead | Aetos Technologies | Jan 2026 - Apr 2026

• Led 3 Odoo developers and 1 functional consultant; handled task assignment, code reviews, technical architecture, requirements, mentoring and delivery planning.

• Led Axis Marketing Management on Odoo 19 with two junior developers across CRM, Meta lead sync, contracts, renewals, customer portal, employee portal and notifications.
• Led ClearPath Orthodontics across Doctor Portal, advance payments, Sales, MRP/BOM, Inventory, employee portal and multi-location ZK attendance customizations.
• Led Sage-Odoo accounting integration using Python/Flask and REST APIs for invoices, customers, payments and reconciliation.

Odoo Developer | Aetos Technologies | Jan 2025 - Dec 2025
• Built end-to-end Mastercard Hosted Checkout provider for Odoo 17/18; production volume ~200 payments/day.
• Developed Tazah sales lifecycle automation spanning quotation, delivery and payment.
• Worked across Accounting, CRM, Sales, Inventory, Manufacturing, portals and external API integrations.

Python / Odoo Developer | Axiom World | Aug 2023 - Jan 2025
• Led Silicon Signs manufacturing customizations across MRP, BOM versioning/comparison, Sales, Inventory and reports.
• Implemented RingFree REST integration, metered billing, monthly invoicing, payment/bank synchronization and financial reporting.
• Contributed to Fell ERP with Sales reporting, daily operational reports, automated email notifications and SQL/report optimization.
• Contributed to Odoo 16->17 HRMS migration covering Employees, Payroll, Loans, HR Tax, data/code migration and testing.
