SUMMARY

Senior Odoo Developer with 3+ years of professional experience building, customizing, and supporting production ERP solutions on Odoo 16–20, including Odoo Enterprise and Odoo.sh. Skilled in Python, Odoo ORM, PostgreSQL, XML/QWeb, JavaScript, OWL, and REST APIs, with hands-on delivery across Accounting, Sales, Purchase, Inventory, MRP/BOM, CRM, and HR/Payroll modules. Experienced in custom module development, customer and employee portals, third-party integrations (Mastercard payments, Sage accounting, Meta leads), data migration, and Odoo version upgrades. Former Odoo Team Lead with ownership of solution architecture, code reviews, mentoring, deployment, and production support, with a proven ability to turn business requirements into scalable, production-ready ERP solutions.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — *Lahore Garrison University*, Lahore *Jul 2019 – Jul 2023*

PROFESSIONAL EXPERIENCE

Founder & Lead Developer — *NeuralBytea*, own Odoo app studio *2026 – Present*

- Independent Odoo app studio. I design, build, publish and support my own apps on the Odoo Apps Store for Odoo 17-20, on both Community and Enterprise.
- 32 published apps across 7 product lines: portals, payments, HR and payroll, dashboards, AI assistant, education and backend UI
- School and course management suite: 12 apps covering students, admissions, family fee invoicing, parent portal, teachers, timetable, dashboards, training batches with seats and waiting lists, and fee installments
- Claude Connector for Odoo: an on-premises MCP server that gives Claude read-only access to Odoo under each user's own access rights; plus an in-app AI chat that works with ChatGPT, Claude or Gemini
- Portal apps (vendor, customer, field sales) that let external users self-serve without extra user seats
- Mastercard MPGS Hosted Checkout with 3-D Secure and automatic invoice reconciliation
- OWL dashboards with Excel/PDF export, plus backend UI upgrades (split view, sidebar navigation, AI list search)
- Full product ownership: store listings, versioning across four Odoo series, OPL-1 / LGPL-3 licensing and customer support

Odoo Techno-Functional Consultant — *Big Binary Tech*, techno-functional (current, alongside TTI) *Aug 2026 – Present*

- Bridge business requirements and technical delivery on Odoo: project ownership, requirement analysis, implementation and scalable solution design.
- Own end-to-end Odoo project delivery as both functional and technical lead: scoping, planning, task breakdown, milestones, progress tracking and stakeholder communication
- Run requirement gathering and gap analysis with clients, turn business processes into functional specifications, and decide what to configure versus customize
- Design and implement Odoo solutions across modules, covering configuration, custom development, data setup and integrations
- Architect for scalability and maintainability: clean module structure, performance-aware queries, access security and upgrade-safe customizations
- Handle technical oversight including code review, deployment support, troubleshooting and production issue resolution
- Support user training, UAT, go-live and post-implementation support, acting as the single point of contact between the client and the development team

Senior Odoo Developer — *TTI Testing Laboratories*, Pakistan (Hybrid) *May 2026 – Present*

- Own Odoo 18 Enterprise development, integrations, performance tuning, security, Odoo.sh deployments, and production support across four branches.
- Built an OWL/JavaScript employee self-service and attendance platform for 250+ employees with dashboards, leave and timesheet workflows, and role-based access.
- Built a field sales portal and migrated and backfilled 54,000+ historical records with validation, territory security, CRM, orders, invoices, and collections.
- Developed employee loan and payroll recovery features and a bidirectional REST API integration for testing and certification workflows.

Odoo Team Lead / Odoo Developer — *Aetos Technologies*, Pakistan (Hybrid) *Jan 2025 – Apr 2026*

- Led a team of 3 Odoo developers and 1 functional consultant across solution architecture, requirements gathering, code reviews, mentoring, and delivery.
- Led Odoo 18/19 solutions covering Doctor, Customer, and Employee portals, Sales, CRM, Inventory, MRP/BOM, HR, and Accounting.
- Delivered Mastercard payment gateway and Sage–Odoo accounting integrations using Python, Flask, and REST APIs.

Python / Odoo Developer — *Axiom World*, Pakistan *Aug 2023 – Jan 2025*

- Developed production Odoo solutions across MRP/BOM, Sales, Inventory, Accounting, HR/Payroll, and reporting.
- Built REST API integrations, metered billing, and financial workflows for client ERP systems.
- Contributed to a zero-loss Odoo 16 to Odoo 17 HRMS migration with data and code conversion and regression testing.

PROJECTS

Employee Self-Service Portal — *Odoo 18 Enterprise, TTI* *May 2026 – Present*

- Built a self-service portal for 250+ employees across 4 branches covering attendance, leave, timesheets, tasks, payslips, loans, documents, and profiles.
- Implemented role-aware security so each employee and manager sees only the records they are allowed to access.
- **Tech Stack:** Odoo 18 Enterprise, Python, OWL, JavaScript, XML/QWeb, PostgreSQL

Attendance Dashboard & Leave Gantt — *Odoo 18, TTI* *May 2026 – Present*

- Built an analytics dashboard with KPIs, a leave Gantt chart, drill-downs, Chart.js charts, and Excel export.
- Optimized dashboard performance with single-RPC data loading.
- **Tech Stack:** Python, Odoo, OWL, JavaScript, Chart.js

Field Salesperson Portal — *Odoo 18, TTI* *May 2026 – Present*

- Built a Sales, CRM, and Accounting portal for ~15–20 sales reps and 5–7 managers with territory security, visits, targets, orders, invoices, and collections.
- Migrated and backfilled 54,000+ historical records with data validation.
- **Tech Stack:** Odoo 18, Python, PostgreSQL, CRM, Sales, Accounting

Employee Loan & Payroll Recovery — *Odoo 18 Enterprise, TTI* *May 2026 – Present*

- Built employee loans and salary advances with installment schedules and automated payroll deductions.
- Integrated the module with Payroll, Accounting, OWL analytics, and the employee portal.
- **Tech Stack:** Odoo 18 Enterprise, Python, Payroll, Accounting, OWL

Testing & Certification Integration — *Odoo 18, TTI* *May 2026 – Present*

- Built a bidirectional REST API integration connecting testing proposals, approvals, Sales Orders, laboratory reports, and external certification and licensing systems.
- **Tech Stack:** Odoo 18, Python, REST APIs

ClearPath Orthodontics ERP — *Odoo 18, Aetos Technologies* *Jan 2025 – Apr 2026*

- Delivered Doctor Portal, advance payments, Sales, MRP/BOM, Inventory, and attendance workflows supporting ~200 doctors and clinics and ~250 orders per day.
- **Tech Stack:** Odoo 18, Python, MRP/BOM, Inventory, Sales, Portals

Mastercard Hosted Checkout — *Odoo 17/18, Aetos Technologies* *Jan 2025 – Apr 2026*

- Built a payment provider covering transaction creation, hosted checkout, callbacks, payment states, and invoice reconciliation at ~200 payments per day.
- **Tech Stack:** Odoo 17/18, Python, REST APIs, Payment Gateway Integration

Sage-Odoo Accounting Integration — *Aetos Technologies* *Jan 2025 – Apr 2026*

- Synchronized companies, customers, invoices, and payments between Sage and Odoo with field mapping, partial-payment handling, reconciliation, logging, and scheduled jobs.
- **Tech Stack:** Python, Flask, REST APIs, Odoo Accounting, Sage

Axis Marketing Management — *Odoo 19, Aetos Technologies* *Jan 2025 – Apr 2026*

- Delivered CRM, Meta lead sync, contracts, license renewals, customer and employee portals, and notifications; coordinated two junior developers.
- **Tech Stack:** Odoo 19, Python, CRM, Meta Lead Sync, Portals

Silicon Signs Manufacturing ERP — *Odoo, Axiom World* *Aug 2023 – Jan 2025*

- Customized manufacturing across MRP, BOM versioning and comparison, Sales, Inventory, and operational reporting.
- **Tech Stack:** Odoo, Python, MRP/BOM, Inventory, Sales, Reporting

RingFree Metered Billing — *Odoo, Axiom World* *Aug 2023 – Jan 2025*

- Built a REST integration for usage-based billing, monthly invoicing, payment and bank synchronization, and financial reporting.
- **Tech Stack:** Odoo, Python, REST APIs, Accounting

HRMS Odoo 16 to 17 Migration — *Odoo 16/17, Axiom World* *Aug 2023 – Jan 2025*

- Migrated Employees, Payroll, Loans, and HR Tax modules with data and code conversion, validation, and regression testing.
- **Tech Stack:** Odoo 16, Odoo 17, Python, PostgreSQL, HR/Payroll

TECHNICAL SKILLS

Odoo Development: Odoo 16–20, Odoo Enterprise, Odoo ORM, Custom Modules, XML/QWeb, OWL, JavaScript, Odoo Portals

Programming Languages: Python, JavaScript, SQL, XML

Backend & Integrations: REST APIs, Flask, Webhooks, Payment Gateway Integration, Third-Party API Integration

Databases: PostgreSQL, SQL

ERP Functional: Accounting, Sales, Purchase, Inventory, MRP/BOM, CRM, HR/Payroll

Migration & Data: Odoo Version Migration, Data Migration, Data Validation, Regression Testing

DevOps & Delivery: Odoo.sh, Linux, Docker, Git, CI/CD, Nginx, Testing

Leadership: Team Leadership, Code Review, Mentoring, Requirements Gathering, Production Support

Languages: English (Professional Working Proficiency), Urdu (Native)
